Why Energy Storage?

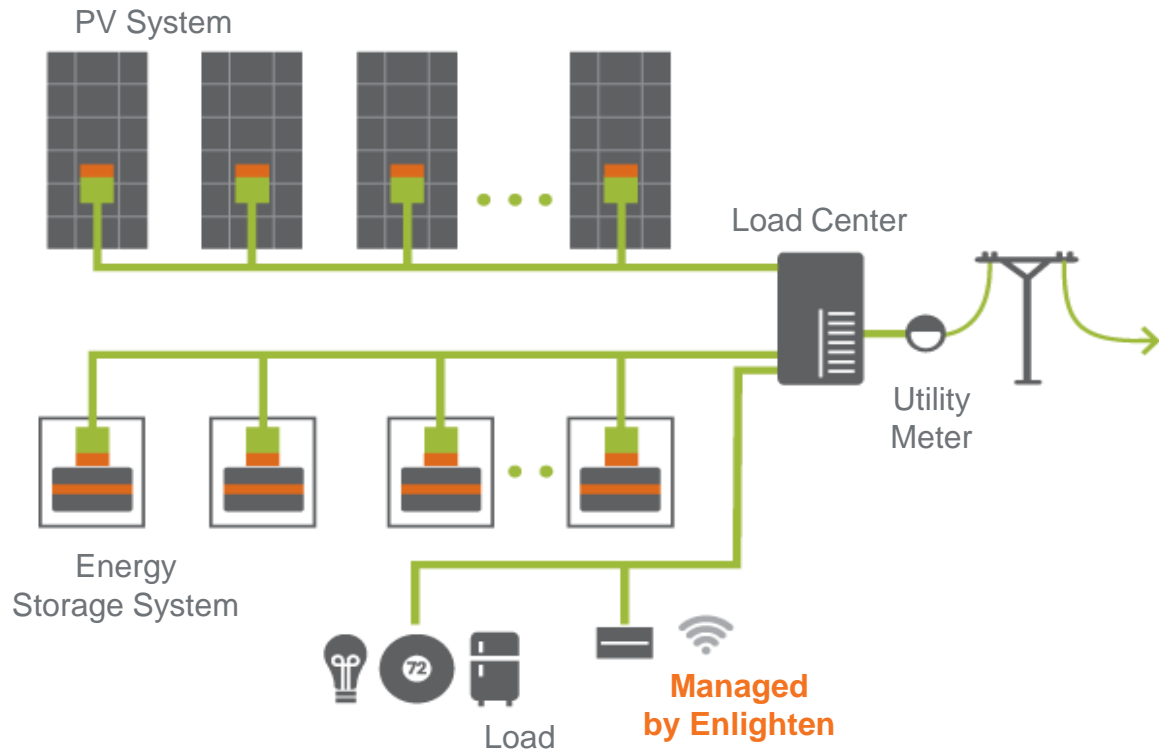

Solar produces energy when most of us aren't home to use it, and most of us need energy when the sun's gone down

Save It for Later: The Value of Energy Storage

Enphase energy solution

Distributed PV (AC Module) and **Distributed storage (AC Battery)**

Installations

Commission in Installer Toolkit

Success

Hang AC Batteries

The block contains three images and text. On the left, a photo shows a row of white Enphase battery units mounted on a wall with green vertical slats. In the center, a smartphone displays the Enphase installer toolkit app interface, showing a 'Commission' screen with various settings and a 'Grid Profile' dropdown menu. On the right, a photo shows a row of white Enphase battery units mounted on a wall. Below the right photo is the text 'Image courtesy of Alternate Energy Inc'.
